

Little worlds. Big discoveries.

Meet Peeka Creation.

Children's games with friendly voxel characters,
low-poly worlds and a love of discovery.

THE STUDIO

A familiar hello. Many places to explore.

Peeka Creation is a children's game studio making little worlds for curious minds. Its games pair expressive voxel characters with colourful low-poly environments.

The studio's first game, Peekawild, invites children and families to explore, meet animals and discover their names. More games are planned, with the same warm, playful visual spirit.

Studio	Peeka Creation
Focus	Games for children and families
First game	Peekawild
Visual language	Voxel characters; low-poly worlds
Website	peekacreation.com
Press contact	info@peekacreation.com

Further game titles and release dates have not been announced. Peekawild is operated by LabLamb Works Limited. Suggested studio artwork credit: Peeka Creation / LabLamb Works Limited.

OUR FIRST GAME

Meet Peekawild.

An animal discovery game for young children and families, played in a web browser.

Explore a connected landscape, tap a voxel animal and open its learning card. Hear the animal's name, see its realistic generated image and discover a short fact about its habitat. The animal book keeps track of the friends already met.

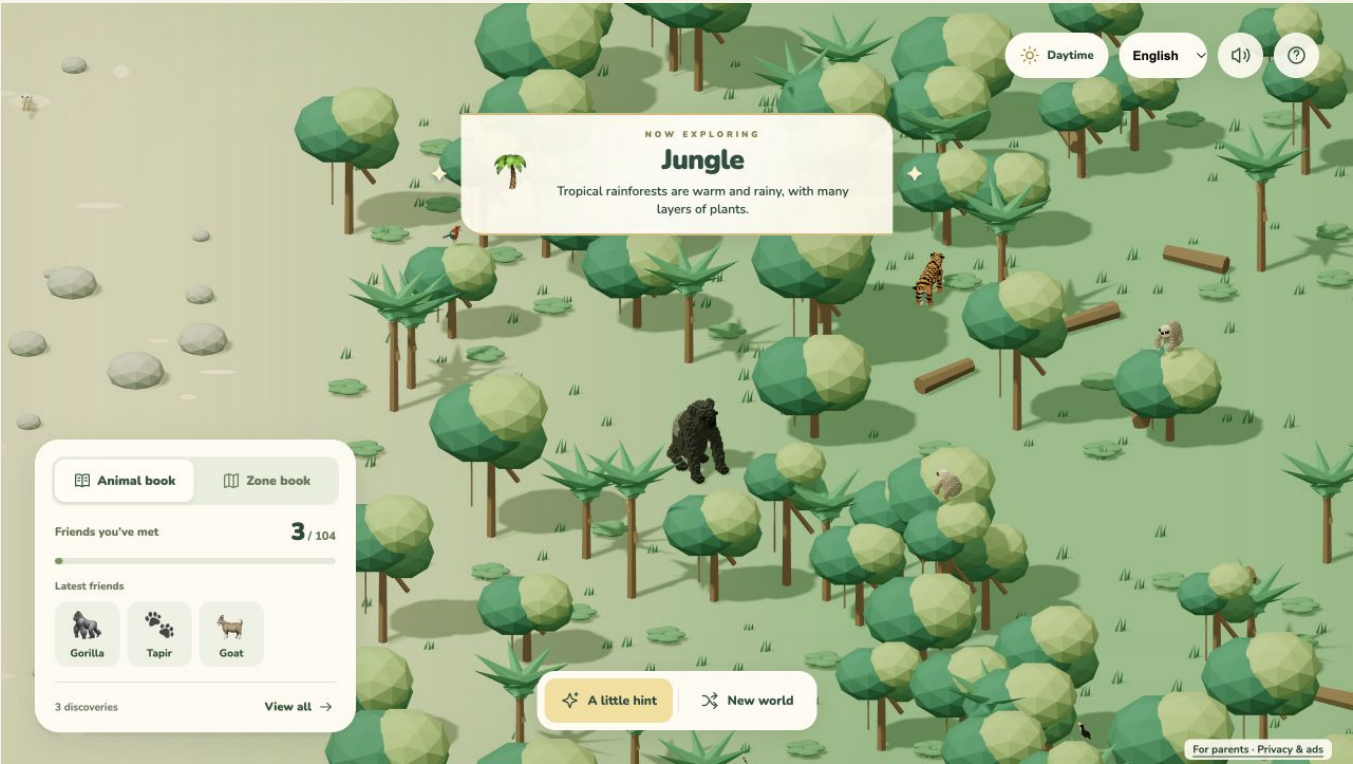

- **Explore at your own pace.** The connected low-poly world invites looking, noticing and discovery.
- **Come back to your collection.** No account is required; discoveries and preferences are saved in the same browser.
- **Discover in different languages.** Check the live game for current voice and language options.

PLAY AT PEEKAWILD.COM

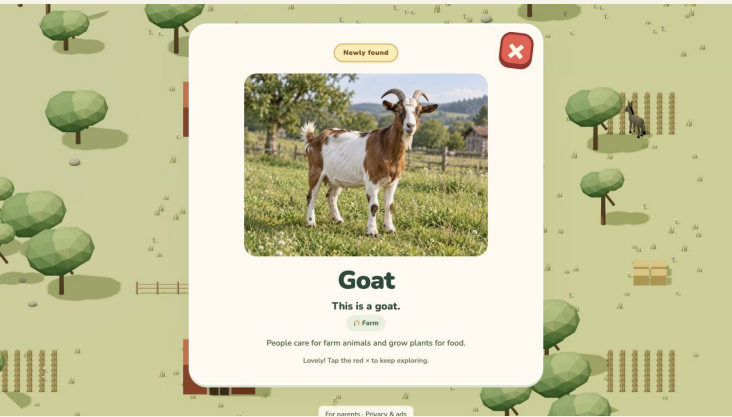

GAMEPLAY CAPTURES

A world to notice.

Actual browser screenshots from Peekawild, captured 25 October 2026.

Explore a connected low-poly jungle and spot voxel animals.

Meet an animal.

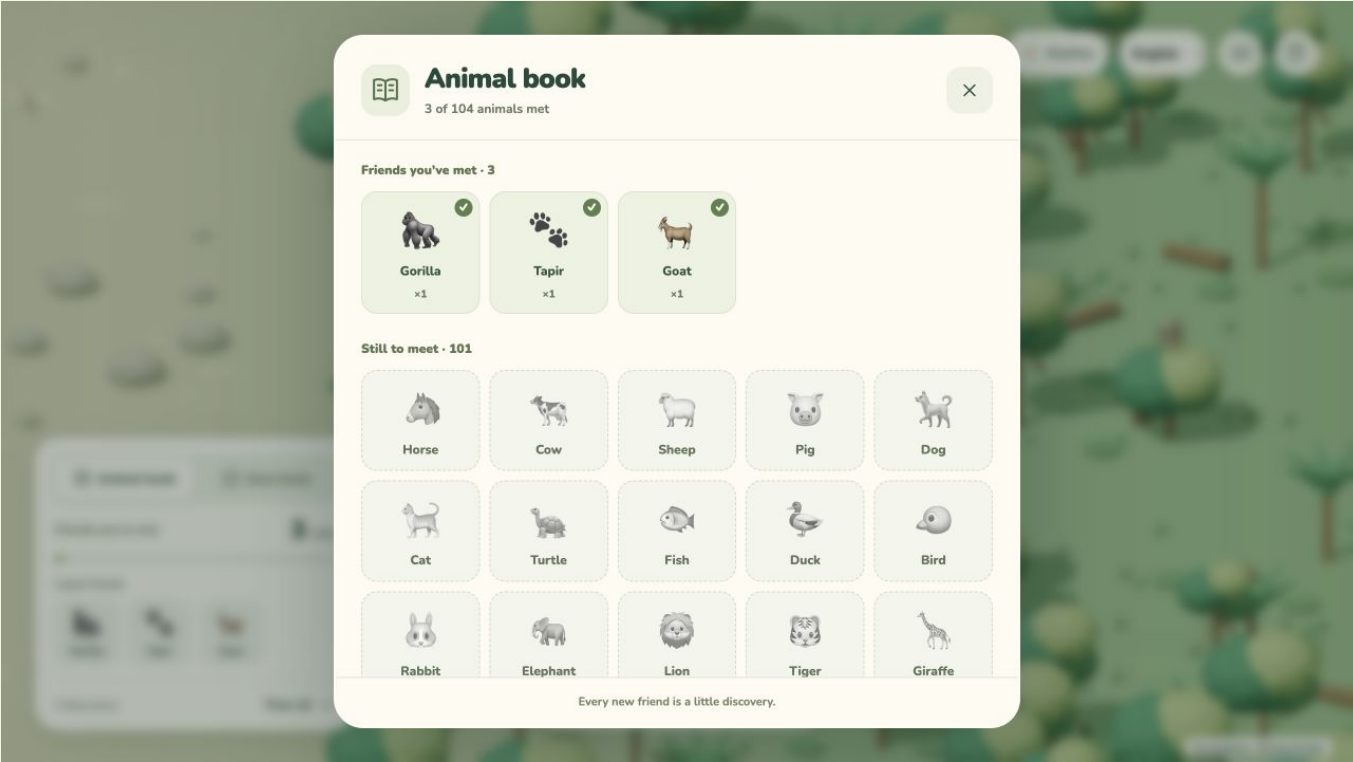

A goat discovery card introduces the animal with its image, spoken name and a habitat fact.

Credit: Peekawild / LabLamb Works Limited. Captures document the game at that date; current content may differ. Learning-card pictures are generated realistic animal images, not wildlife photographs.

MORE TO DISCOVER

Keep a little collection.

The animal book records friends already met and animals still to find.

Revisit discoveries in the animal book.

Discover in Cantonese.

A monkey learning card with Traditional Chinese text and a jungle fact. See the live game for current language choices.

Captured 25 October 2026. Credit: Peekawild / LabLamb Works Limited. Any interface counts belong to the historical build shown, not a current catalogue claim.

FOR YOUR STORY

Artwork, words and a warm hello.

- **Studio artwork.** Use the supplied Peek-a Creation logo and symbol for studio coverage. Keep the complete name and original proportions.
- **Game artwork.** Use Peekawild assets to identify the game. Illustrated logos are promotional art; screenshots are genuine game captures.
- **Ready-to-use copy.** Short and full studio descriptions, a game profile and fact sheet are supplied in editable formats.
- **Useful context.** The press materials do not announce a launch date, further game title, age certification, award or developmental outcome.
